Business Assessment

Section 1: Your Goals & Objectives

1. What would you like your company to look like three years from now? What about ten?

2. If you had that ideal business - or at least were a lot closer to it than you are today - what would you be getting out of it that you are not today? What would your role be if you could do anything? How could the business server your life better?

3. What do you specifically think is in the way of reaching your business goals?

Business Assessment

Section 2: Your Business Frustrations

2. What have you tried so far to deal with these frustrations and how has that helped (or not)?

3. Have you ever worked with a business coach or consultant before and if so, what worked (and what didn't) with that experience?
